However, nowadays there are quite a few companies around the country that offer a fast and safe loan service. There are also quite a few companies that offer a fast loan service in Memphis. The good thing about these fast loan services is that they can offer you alternative ways to get a safe loan.

Loans from Friends and Relatives

The easiest and fastest way to get a loan is by going to friends or family but this can be risky. If, for whatever reason, you aren't able to pay back the loan in full or on time you can destroy precious relationships. If you only need a small amount of money and you are at least 90% sure you'll be able to pay it back then this is probably your best bet. However, if you aren't so sure, it's worth the higher fees if it means saving friendships and keeping harmony at home.

Use Your Jewelry

What you might want to do instead is, head down to a local [jeweler and loan service in Memphis](#) and trade in some of your valuable items. When you trade your jewelry or precious metals for a loan or cash you don't have to feel stressed about paying the money back. This is a far better option than burdening family and friends with a loan. You should check if there will be interest rates on the loan from a jeweler and make sure to calculate with this when you make up your budget for this loan.

Other Precious Items

Jewelers that offer loan services in Memphis can also buy other precious items from you. Think about things that you have that could be worth money. Sometimes we forget about the items made of silver that are stuffed away where daylight never hits them. Take them out and consider getting rid of them when you need money for more important things. Contact a jeweler and loan service like [Accent Jewelers](#) and check what types of items they will accept for loans. You'll be surprised to see how much money you can get out of things you even forgot you had!
